

It's important to Hops & Barleys to have a personal relationship with our devoted and valued customers, and a monthly newsletter is just one more way of doing so. While the world moves further into the technological era, we don't want to be left behind.

We love being able to reach out to our customers, now only a cellphone, tablet, or computer away. It gives you a way to stay connected to us, too! With busy schedules and hectic lives, it's nice to know that some things will always remain constant- Hops & Barleys being one.

You might open up an email that invites you to a special event at Hops, or simply reminds you of a great menu item. We'll include changes going on behind the scenes at the restaurant to keep our customers informed and up to date. Don't forget about savings! Hops & Barleys will offer coupons and discounted specials in our newsletters.

To stay current on menu items, events, specials, and to receive special access to promotions and coupons, be sure to subscribe to our emails. We'll keep your email addresses safe- don't expect any spamming from us. We hope you get to know us even better through our newsletters, and enjoy all that we have to offer.
